I'm here to help you find the best OMOP CDM databases for your observational studies. Please provide me with questions or specific details about your study needs so I can identify the most suitable databases for you.

Hello, could you please describe the scope of your study?

We want to conduct a characterization study with main research topic about covid-19. Can you assist us?

Hello! Based on your interest in COVID-19 research, I recommend exploring these specialized medical databases for more targeted results:

These databases are specifically tailored to provide comprehensive and up-to-date information related to the ongoing pandemic.

Are there any other concepts you'd like to add? If yes, please add them. If no, simply respond with 'no'.

How can I help you?
